

Dear Manager,

Healing Hands for Haiti Foundation, Inc. is a non-profit organization that specializes in bringing rehabilitation therapy and medicine to Haiti. We have opened a clinic, school and guesthouse in Port-au-Prince. We are in need of any portable medical equipment that you can donate to us to give to disabled children and adults. This could include new or used wheelchairs, walkers, crutches, canes, AFOs, splints or braces. We need medical supplies, such as ace bandages, Band-aids, gauze, tape, disinfectants, hand sanitizer, etc. We need over-the-counter medications such as Advil, Tylenol, children's Tylenol, topical medications, etc. We are also in need of prosthetic limbs or supplies to create limbs.

We have physicians, nurses, physical therapists, occupational therapists, translators, and support staff who use their personal vacation and pay their own way for each of our medical trips. In addition, we are looking for nurses and therapists who would be willing to spend additional time living and working in our clinic and teaching students the basics of rehabilitation medicine.

Please provide our representative with the donated supplies or send the donated items to Dr. Jay Shetlin or we could come pick them up. We would appreciate whatever you can give to this worthy cause. Please call Dr. Shetlin or Team coordinator-Lisa Bagley if you have any questions. Our Tax ID is 04-3486458.

You can learn more about Healing Hands for Haiti at www.healinghandsforhaiti.org

Sincerely,

A handwritten signature in blue ink, appearing to read "Jay Shetlin".
